PROFESSIONAL SUMMARY

Frontend developer and AI engineering student with certified skills in HTML5, CSS3, and JavaScript (Johns Hopkins University via Coursera). Built and deployed multiple live web projects including client landing pages and interactive apps. Currently specializing in Python, Machine Learning, and LLM integration through an AI Engineering Bootcamp. Seeking a role where I can apply front-end delivery skills and growing AI knowledge to build real-world web solutions.

TECHNICAL SKILLS

Languages: HTML5, CSS3, Python, C (Foundations), JavaScript (learning)
Frontend: Responsive Design, CSS Flexbox/Grid, DOM Manipulation, Mobile-First Design
AI & ML: Python (OOP, Algorithms), ML Fundamentals, LLM/ChatGPT API, Prompt Engineering, Ollama (Local LLMs)
Tools: Git, GitHub, VS Code, Vercel, Netlify, Anaconda, Jupyter Notebook, G-Suite
E-commerce: Shopify Store Setup, Theme Customization, Landing Page Design

PROJECTS

- Exam Tracker Web App** | [Live Demo](#)

2025

HTML5, CSS3, JavaScript

 - Built a browser-based exam scheduling tool with real-time DOM updates — no page refresh — using JavaScript event handling, enabling students to track subjects and deadlines dynamically.
 - Implemented responsive layout supporting mobile and desktop viewports, applying CSS Flexbox and mobile-first design principles.
- Personal Portfolio Website** | muktadir071.github.io/portfolio

2025

HTML5, CSS3, JavaScript, Vercel

 - Developed and deployed a fully responsive portfolio site showcasing projects and skills, applying CSS Grid/Flexbox layout and mobile-first architecture — deployed to production on Vercel.
- Client Landing Page** | [Portfolio](#)

2025

HTML5, CSS3, JavaScript

 - Designed and delivered a professional single-page business landing site for a client, with conversion-focused CTA structure, clean UI, and cross-browser compatibility.
- YouTube Downloader CLI Tool** | [GitHub](#)

2025

Python, yt-dlp

 - Engineered a command-line automation tool using Python and yt-dlp with format selection, argument parsing, and file I/O handling — reduced manual download overhead to a single command.

EDUCATION

- B.Sc. in Computer Science & Engineering (AI Major)**

2025 – Present

Enrolled — targeting AI & Information Engineering degree
- Higher Secondary Certificate (HSC) — Science Group**

2024

Kushtia Govt. Central College, Kushtia | GPA: 5.00 / 5.00 | Jashore Board
- Secondary School Certificate (SSC) — Science Group**

2022

Kushtia Zilla School | GPA: 5.00 / 5.00 | Jashore Board

CERTIFICATIONS & ACHIEVEMENTS

- HTML, CSS & JavaScript for Web Developers** — Johns Hopkins University via Coursera | April 2026 | Credential: VLYMFAIJVGWH
- AI Engineer Bootcamp** (Python, Machine Learning, LLMs, Web Dev) — Udemy | In Progress, 2026
- Perfect GPA (5.00/5.00)** — Both HSC 2024 & SSC 2022, Jashore Board | Consistent top academic performance

LANGUAGE PROFICIENCY

Bengali (Native) | **English** (Professional Working — all technical coursework in English) | **Japanese** (Beginner — Hiragana & Katakana; MEXT preparation)
